Recyclable, chemical resistant, and water proof EverRoad® access mats support tremendous weight loads and can be used to create temporary roadways for trucks, cars, forklifts, and all types of vehicles. Easily moved by hand, mats can be laid down in muddy conditions for access over grass and other ground surfaces to protect against rutting and other damage. Unlike plywood EverRoad won't become waterlogged and will not warp, crack, rot or delaminate.

Material

High-Density
Polyethylene (HDPE)

Size

8' x 4'

Thickness

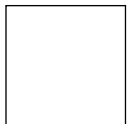

0.5"

Weight

70 lbs/mat

Colors

EverRoad comes
in White or Black
